New Listings

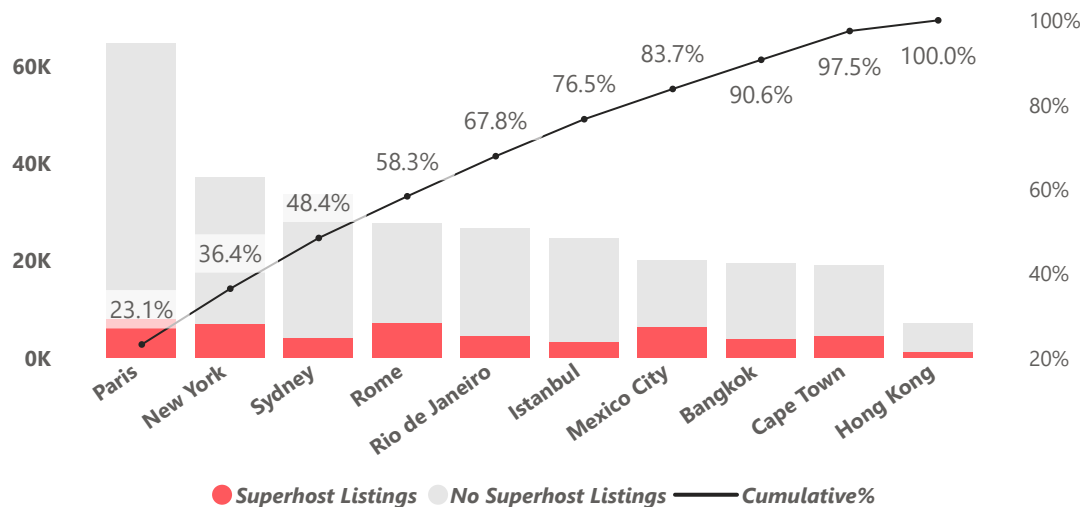

Airbnb has established a strong global presence with 279K listings across 10 cities and 182K hosts. Listings experienced rapid growth between 2011–2015, with Entire Place dominating the market. The COVID-19 period caused a significant decline in overall listing activity.

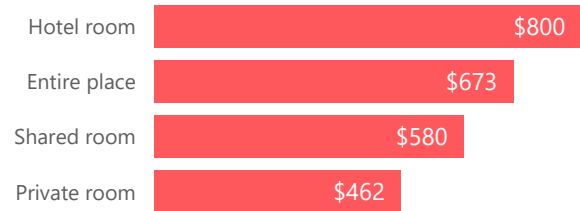

Airbnb Global Performance Dashboard

Market Share by City

Paris and New York account for the largest share of Airbnb listings, highlighting their dominance in the global market. Superhost presence remains a smaller segment across cities, while hotel rooms command the highest average prices among property types.

Overall Rating

Detailed Rating

Ratings

Mexico and Rio are Overall the best rated cities, HK and Istanbul the worst ones. Cleanliness and value for money ratio are the two metrics generally scoring the lowest.

Airbnb Global Performance Dashboard

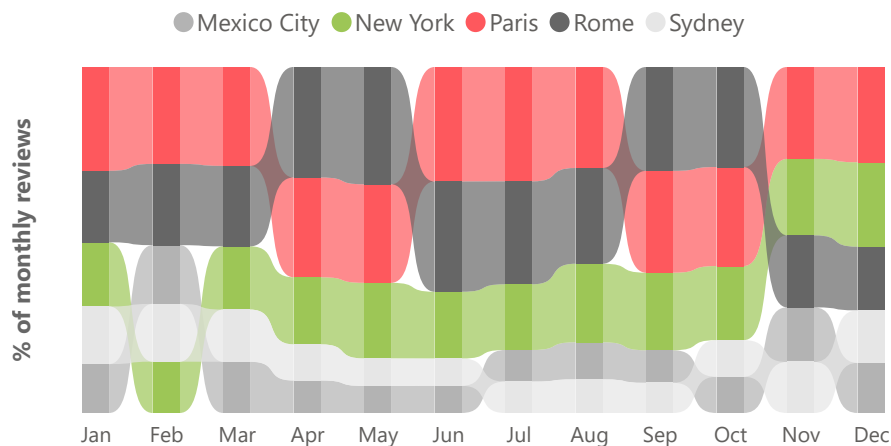

Review Frequency

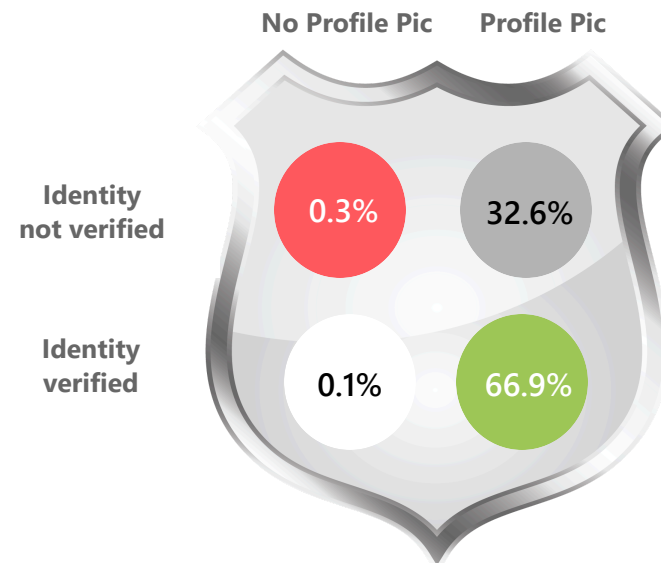

The review frequency distribution shows that the vast majority of users leave only one review, while reviewer participation declines sharply as review frequency increases. A small group of highly active reviewers contributes multiple reviews, indicating a highly concentrated engagement pattern.

Seasonality

Paris and Rome dominated review share from April to August, reflecting peak European summer travel.
New York saw an increase in November and December during holiday season.

Trust

Over two-thirds of Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal, keeping unverified and anonymous profiles to a minimum.
